

A Christmas greeting from family Winberg, Åkersberga, Sweden

The whole family except for Fredrik has been living at home in Kungsbacken during the year. As before, we have been sailing quite a bit – in Sweden, Finland and Estonia. Roger's sailing trip to Finland together with a friend, Leif, went via the Estonian island of Hiiumaa and the northern Estonian coast. Helena, Roger, Jens and Helena's relative Mikael with family sailed in July to the Estonian island of Prangli NW of Tallinn. During the summer we had the pleasure of having friends from Bavaria visiting us –

Frank was sailing Finland-Åland-Sweden with Roger, while his wife Therese spent some days in Kungsbacken, and in August family Obermaier visited us and even with them we spent some time sailing. In October we visited Fredrik in Kalmar and visited among other places the castle of Kalmar. During late November and early December when Helena's parents visited us, Helena and Roger took the opportunity to go to Agadir at the Atlantic coast of Marocco (picture), and also driving around in the country during three adventurous days, among other places in the snowy Atlas-mountains and in the historically interesting city of Marrakech. We will all be together in Kungsbacken for Christmas, but Fredrik and Peter will visit all their grandparents around New Year.

Jens, 6, has entered the class for six-years-olds, and together with his father he continues going to the swimming class on Saturday mornings.

Peter, 17, continues in the gymnasium (senior high school) which has been renamed to Täby Yrkesgymnasium, where he has chosen for the transportation program. He has already passed the theory examination for his driver's-license and is now taking driving lessons at school as well as with his parents.

Soon he will start to drive a lorry.

Daniel, 20, finalised the military service in the beginning of the year. After having been working for a couple of months, in the autumn he began his studies for a bachelor degree in constructional engineering at Kungliga Tekniska Högskolan, Stockholm.

Fredrik, 22, continues his bachelor studies in marine engineering in Kalmar, where he has now moved into his own student's den. Last summer he was practicing on a ship operating in northern Europe.

Last autumn **Helena** took over as the operational manager for a private geriatric care home (Attendo Care) in the neighbouring Vallentuna, where she used to work as a deputy manager. She likes the new challenges very much, even if it means that she is now working full-time.

Roger continues working as an internal auditor at TeliaSonera, where he is mainly engaged with IT related auditing.

We wish you all a Merry Christmas and a Happy New Year 2009!

Love from,
Helena, Roger, Fredrik, Daniel, Peter and Jens
